

PUBLIC LEADER

FIFTH YEAR.

MAYSVILLE, KY., TUESDAY, APRIL 28, 1896.

ONE CENT.

If you have friends visiting you, or if you are going away on a visit, please drop us a note to that effect.

Mr. Raymond Vioro of Cincinnati is visiting in the city.

Miss Clara Russell of Cincinnati is the guest of Miss Mary Daulton.

Mr. H. B. Daugherty and son Samuel have returned from their trip to Eastern points.

Mr. Edward Leonard has returned from a visit to his sister, Mrs. John Butler of Covington.

Peter Sim, Esq., a prominent shoe manufacturer of Boston, Mass., is visiting his friend, Judge A. E. Cole.

Miss Hazel Hawks of Lee street, after a visit to her mother, has resumed her studies at the Georgetown College.

Mr. Charles Johnson, son of Jailer John Johnson, left this morning for Danville, Ind., where he goes to attend college.

Mr. and Mrs. William T. Cole returned Monday evening to their home in Greensburg, after a pleasant visit to the family of Judge A. E. Cole.

Mr. and Mrs. Jacob Miller returned home yesterday after a visit to Mr. Miller's brother, Mr. Michael Miller of Augusta, who has been seriously ill.

Very Personal.—Postage on drop letters, whether sealed or not, is 2 cents. Many persons send their notices through the Postoffice with only 1 cent stamp. These are "held for postage." Hereafter they must contain a 2 cent stamp.

Professor J. G. Crabb of Ashland has been again engaged to conduct the singing at Ruggles Campmeeting.

Walter Matthews, Trustee of W. J. Jackson, sold the "Horseshoe House" at Maysville to Mrs. Emma D. Jackson for \$470.

The Rev. N. G. Grizzle of Sedden's Chapel is soliciting aid towards building a parsonage for his Church in the Sixth Ward.

A couple of additional carloads of telephone poles came in Monday over the L. and N. The work of putting up the line will begin just as soon as there are sufficient poles on hand to insure no delay in the construction of the system. Meanwhile, subscriptions for telephones may be left at the L. and N. office.

Master John Calhoun made a very narrow escape yesterday afternoon from a serious accident. He received a new bicycle and started out for a run, and when near the Fifth Ward watering trough a horse that was drinking frightened and reared upon its hind legs. John endeavored to get out of the horse's way, but got right square in it. The horse planted both its front feet into the bike, smashing the front wheel and barely missing the little fellow's leg.

Mr. John Duley went home to supper last evening. This is an everyday occurrence, however. He found his home in the quiet possession of his family and a number of relatives and near friends. This was somewhat out of the ordinary. When he began an investigation he found out that it was his birthday, and that his wife had planned a "surprise" which surprised him. The L. and N. hopes that he and his may live to celebrate many returns of the event.

SLIGHTLY "SHOT."

A "Number" That Was Not Down on the Minstrel Program.

"Body Operative Minstrel," composed of a number of Maysville's young men, made an excursion to Manchester Monday evening, to enliven that sleepy town with an up-and-up entertainment.

They went by the water route, but some of the excursion party had no use for water further than as a help to navigation.

Beer and whiskey was their "strong hold," and by the time they were ready for the return trip several members were "loaded to the guards."

It is learned from numerous sources that Charles McCarthy and William H. Case had no misunderstanding of some sort, which Mr. McCarthy sought to settle with a gun.

He turned loose on Mr. Case, and a slight wound on the left breast is his certificate of the trip.

His injury is trivial.

This happened at the Manchester wharf as the excursionists were ready to set sail for home.

MAYSVILLE WEATHER.

What We May Expect For the Next Twenty-four Hours.

THE LEDGER'S WEATHER SIGNALS.

Blue—Rain or snow; With blue above—"will" warmer snow.

If blue's beneath—"colder" will be; Unless blue's shown—"no change" we'll see.

The above forecasts are made for a period of thirty-six hours, ending at 6 o'clock tomorrow evening.

Why send away for Screens when you can get them made at home promptly by MAYSVILLE MANUFACTURING CO.

Wyandotte Tribe No. 3, I. O. R. M., will meet this evening at 7 o'clock to prepare for the coming of the Great Sachem.

Nelson Isaacs of Vanceburg went to Cincinnati to see the sights, and he got drunk and is now telling the fake story that some one robbed him of \$80 and his shoes.

On Monday in Florida Mr. W. N. Haldean, President of The Courier-Journal Company, celebrated the 75th anniversary of his birth.

Mr. Haldean, like many other distinguished persons, was born in Maysville.

Near Evans's Mills, Robertson county, during a fearful thunder storm, Tillie Willett, 14, was struck by lightning.

Her shoes were torn from her feet and thrown some distance away. She was so badly burned and shocked that she will die.

A. O. F. W. Regular meeting tonight at Hall on Sutton at 7:30. A full attendance is desired as business of importance will be transacted.

IT'S A LIE!

The Sensation-Monger Not at Brookville.

STUFF THAT PAPERS PAY FOR.

Tuesday's Cincinnati Post, under three-pica "care" head-lines, published this morsel:

The Post's Special Service.

LOUISVILLE, Ky., April 27th.—A special from Brookville, Ky., says it is reported here today that Robert Laughlin, who is in the Maysville Jail for the murder of his wife, her unborn child and niece, the latter of whom he assaulted and then set on fire, has made another confession that makes him the champion fiend of the age.

It is said that he has confessed that the idiot child which was found in a spring near his house, was one of his victims, and that he confessed to the murder of his brother-in-law Benjamin McCracken, thus making five victims sacrificed to his murderous lust for blood.

"The Post's Special Service" needs revision—or a straight-jacket.

The only authority for any part of the above statement lies in the fact that a few weeks ago a Bracken county officer visited Laughlin in the Jail here and labored hard to get him to confess to the additional crimes charged.

Laughlin denied all knowledge of or connection with these murders in the most explicit terms.

No later than Monday—yesterday—Laughlin was visited by a newspaperman, and in response to inquiries from his visitor he again and emphatically denied all connection with these murders.

Moral—When you see a "special" from any of the towns surrounding Maysville, don't believe a word it says.

As the returns come slowly in it is found that several Kansas towns will be more or less under the domination of women officials during the ensuing year. In Ellis, as in Gaylord, the Mayor and all the members of the City Council recently elected are women.

The marriage of Mr. John Buckley and Miss Mollie Mullerly will take place Wednesday at St. Patrick's Church at 7:45 a. m. The bride is a young lady of rare accomplishments and Mr. Buckley is a young business man, whose legion of friends will join THE LEDGER in congratulating him upon the happy event.

The Ledger's Business Plan Attracts Attention of Ashland.

Ashland Republic.

THE MAYSVILLE LEDGER makes a good suggestion, and that is to have the C. and O. run an excursion from Calletsburg and Ashland to Maysville, to give the people in these and other towns along the river a chance to go to Maysville to get their goods, the same as Maysville people go to Cincinnati. The excursion could be turned the other way and bring the people from Maysville to Ashland to buy their goods. It is natural for people to want to go away from home to buy, and there are lots of people at Maysville and along the line that would like to take an occasional excursion to Ashland whether they buy anything or not.

BUSINESS EXCURSIONS.

Why Don't Maysville Merchants Have Them Run Here?

THE LEDGER last week offered a suggestion to the merchants and business men of Maysville that would counteract the effect of the cheap excursions that are being run to Cincinnati from this point, which was in the main that our merchants should organize a guarantee fund and secure excursion trains on the C. and O. and L. and N. Railroads to bring people into Maysville at 8 or 9 o'clock in the morning and keep them here until 4 o'clock in the afternoon.

The object of these excursions would be primarily to induce people to come to Maysville.

After they are once here, if our merchants fail to sell them goods it will be the fault of the merchants themselves.

Maysville is so much better market than any other city within the radius of fifty miles, that the residents of that territory would much prefer to do their shopping in this city, and they will do it if our people will offer them some inducement to come and trade with us.

In response to THE LEDGER's suggestion there was quite a number of voluntary offers to join in the movement, but the enterprising house of Hechinger & Co. was the only one that would put itself down in black and white on that score.

THE LEDGER once more expresses a desire to hear from our business men in regard to this matter.

The proposition is so plain that it ought to suggest itself to everyone without the least hesitation.

MAYSVILLE'S HIGHWAYS!

THE GREAT ECONOMY OF THE PRESENT SYSTEM.

And It Doesn't Look Like the City Will Ever Have Anything Better—Sticking to the Old Ways.

A favorite question with strangers who come to Maysville is: "Why don't you pave your streets with brick?"

The only answer that can be given to such a straightforward, sensible and business-like question is, that our grandfathers knew nothing of paved streets any more than they knew of the telephone, the railway, the sewing machine, the electric light, the printing press, the typewriter, or any of the other thousand and one economic and labor-saving devices which progressive man has invented for the benefit of the human race.

Our grandfathers, for lack of this knowledge, had to be content with the stagecoach, the tallow candle, and the ordinary mail facilities for the transmission of news, and were quite content, for the want of better methods, to travel over dirt roads.

And so it is with the people of Maysville. They have no long followed in the footsteps of their grandfathers, who are content with macadamized streets, covered with dust six months in the year, and covered with mud the remaining

this problem out so as to satisfy the most obtuse mind that there is a direct saving to the taxpayers of \$5,000 per year, to say nothing of the comfort that would be enjoyed by the citizens through having a cleanly and economical system of highways.

Notwithstanding the ease with which this consummation may be wrought, THE LEDGER has no hope of ever seeing it done in Maysville, for the old fogies here are so wedded to the antediluvian idea of dust and dirt and mud, and mud and dirt and dust, that it is more than probable Maysville will continue to revel in the luxurious extravagance of her streets until the great-grandchildren of her present citizens are gray-headed men.

Let us go on, then, expending \$10,000 a year for the present abolition, rather than pay \$5,000 a year for the luxury of decent streets.

This is the exalted idea that some people have of economy.

Did it ever occur to you how easily "civilized" communities obtain brick streets?

FOR INSTANCE.

Mr. A. owns a piece of property. It costs \$100 to put down a brick street in front of Mr. A.'s property.

The city builds the street.

And then the city has prepared a ten-year bond, with ten coupons of \$10 each, drawing 5 per cent. interest.

Mr. A. redeems one of these coupons every year, and at the end of ten years his part of the street is paid for.

If it costs only \$50 to make the street in front of Mr. A.'s property, it will cost him only \$5 a year, with the 5 per cent. interest.

The Detroit and Cleveland Steam Navigation Company's steamers are now running daily (except Sunday) between Detroit and Cleveland. When traveling East or West, North or South, try to arrange to take advantage of these luxurious steamers between Michigan and Ohio.

If you are contemplating a summer outing, write A. A. Schantz, G. P. A., Detroit, Mich., for illustrated pamphlet, which gives full information of a trip to Mackinac via the Coast Line.

time. With them the matter of cost is a small consideration, so they can have the benefit of this antique street system.

The present cost of our streets runs from \$9,000 to \$13,000 a year—an average of about \$10,000 annually.

It has been computed that it would cost \$100,000 to lay the entire street system of our city with brick; \$100,000 could easily be raised by issuing bonds; these bonds can easily be floated; right here at home at 5 per cent. interest; this interest would represent an annual outlay of \$5,000.

Now, if you will get some little ten-year-old schoolboy, and let him stand up before the blackboard, he can soon figure

There are several locations within easy access of Maysville that might be secured for such desirable purposes; but in view of past experience it is scarcely reasonable to hope that Maysville would take any active steps looking to the acquisition of this institution, more especially when it is known that the average attendance on this school for the past five years has been about seventy, and that the average amount expended by each boarder has exceeded \$300 per year.

This would mean an annual outlay with the people of Maysville and Mason county of some \$21,000 annually; and these are the sort of benefits that Maysville does not seem to hanker after.

They are left to such thrifty villages as Winchester, Millersburg, Paris, Midway and Bowling Green, which are supported in the main by the colleges located there.

AN ODD OFF.

Presidents Own a Grave Yard They Have Never Seen.

New York News. A gift of graves and the title to two plots of land three miles West of Lancaster, O., near the old Mayville and Zanesville stage coach pike, is vested in the President of the United States, whoever he may happen to be.

Among the Scotch Covenanters captured by the Duke of Monmouth at the battle of Bothwell Bridge, June 22, 1679, was the leader, Richard Cameron, and one of his most faithful adherents, Nathaniel Wilson, aged nineteen. When King Charles learned of Cameron's capture he ordered his hands to be cut off with Cameron's own sword and nailed up in a public place as a warning to all.

Wilson escaped and Cameron presented him with a sword. Wilson came to America in 1683, and settled in Pennsylvania. His son and namesake some years later removed to Ohio, taking with him the Cameron sword. He settled in what is now Fairfield county.

His father had a deep respect for burial grounds, and deplored their desecration. He died in 1815, and in 1817 his son decided to set aside a certain tract of land as a burial ground for his family. To insure the property against desecration and invasion he conveyed, on October 24, 1817, by deed, to James Monroe, President of the United States, and his successors in office forever, this particular tract. It is described in detail in the deed, giving the mores and bounds. The instrument then states the measurements "shall pursue courses and distances as to form a regular duodecagon, all of which is to be appropriated and used by the said Nathaniel Wilson and his heirs for and as a place of family burial, and for no other use whatsoever."

This land was conveyed to President Monroe and his successors in fee simple forever, in trust for Nathaniel Wilson, and the President formally, in writing, accepted the trust, which, likewise, has formally been accepted by all his successors.

Wilson's will, dated April 12, 1838, bequeathed to Martin Van Buren, then President, and his successors in office forever, a grove of locust trees, the timber of which he intended for building a fence. There are now nine graves in the queer burial ground. No President has ever seen the cemetery.

The Bemis Tobacco Setter.

The Only Successful Transplanter on the market, and tested the test during the dry season of 1895 where it will last a lifetime if properly cared for. Makes its own seed, simply constructed and starts quicker and more uniform than hand planting. Will make its price every year in a small crop.

See what the largest grower in the state says about it: "This is to certify that I have used three different Tobacco Transplanting Machines upon my farm, and that I find the plants live so much better after the Fuller & Johnson 'Bemis' I would buy no other. This opinion is formed from working all of these machines side by side through the entire season of 1895. For sale by LEASIS CUMMIS, Lexington, Ky."

Every machine fully warranted to do satisfactory work in the field or home. To secure one of these machines orders must be placed early. For sale by

Through Cars to California via "The True Southern Route."

The Iron Mountain route, in connection with the Texas and Pacific and Southern Pacific Railways, offers to tourists and homeseekers contemplating a trip to California the following features: From St. Louis daily Pullman Palace Buffet Sleeping cars to Los Angeles and other California points without change, and every Wednesday and Thursday evenings Pullman Tourist Sleeping cars to Los Angeles and other California points. The tourist cars used on these weekly excursions are modern and built especially for California travel. The excursions are personally conducted, and the object is to enable those who do not wish to purchase first-class tickets the privilege of sleeping car accommodations and no change of cars. No high altitudes and free from ice and snow, forming an ideal winter way to the land of sunshine, fruit and flowers. Via this route the dangers of snow-blockades and delays are obviated. For maps, time-tables and full particulars address N. R. Warwick, Agent, 317 Vine street, Cincinnati, O.
